SUSPECTS

Separate files have been opened on all individuals considered to be suspects. Where appropriate, summary reports are being prepared and recommendations made for inclusion on Security Index. When a summary report is not justified, and dissemination to other government agencies is not necessary, the case will be closed by memo using the same format as a summary report. U

All offices will comply with the following Bureau instructions concerning individual suspect investigations: U

Upon completion of the security aspects of existing individual suspect investigations and where there is remaining criminal investigation to be done, the character will be changed to "MISCELLANEOUS - INFORMATION CONCERNING (MEDBURG SUSPECT)." New suspect investigations instituted, where no basis for security investigation is present, will be opened under the 62 category under the character, "MISCELLANEOUS - INFORMATION CONCERNING (MEDBURG SUSPECT)." U

A brief summary of activities, together with a physical description of those individuals no longer considered suspects as of 5/13/71, is included in details of this report. Subsequent reports will include the same information on other individuals in this category. U

In each instance, where an individual suspect investigation has been conducted, efforts have been made to obtain photographs, handwriting and handprinting samples. In addition, a determination is made as to availability of fingerprints. Investigation is also directed to determine whereabouts of the suspect during the period 3/8-9/71. Each individual suspect will be interviewed except in those cases where good judgment dictates otherwise or where other special conditions exist. U

~~CONFIDENTIAL~~

Investigation is continuing to identify the xerox copiers used to reproduce stolen documents and other documents released by the "Citizens' Commission to Investigate the FBI."

As of May 6, 1971, the FBI Laboratory has examined specimens obtained from 4,569 xerox copiers. None of these specimens have been associated with the characteristics noted on questioned copies in this case.

Results of the following laboratory examinations and information pertaining thereto are being set out in the Administrative Section of this report since to include the information in the details would tend to disclose the identity of a highly confidential source, informants or other confidential sources.

The Richmond Office on April 28, 1971, forwarded to the Laboratory a xerox copy of a two-page letter with envelope postmarked 4/12/71 addressed to suspect [redacted] Federal Prison, Petersburg, West Va., bearing the return address of [redacted]

[redacted] These items were obtained on a confidential basis from [redacted] of the Federal Prison by Special Agent [redacted]

The Laboratory report as to examination of these items, Laboratory number K4592, is as follows:

"K4592 Copies of envelope postmarked 4/12/71, and accompanying two-page typewritten and handwritten letter received by [redacted]

"Result of examination:

"Meaningful comparisons cannot be made between handwriting and hand printing. Therefore, it was not possible to determine whether the writer of K4592 did or did not prepare the questioned hand printing on Q48 and Q49 in the instant case or the questioned material on specimens submitted in the EASTCON case.

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

"It was determined that the typewriter impressions on K4592 were not prepared with the questioned typewriters used on specimens submitted in the instant case."

The New York Office has advised that copies of the handwriting and hand printing of suspects [redacted] and [redacted] K4599 and K4600, were obtained from a highly confidential source. Results of examination of these items by the Laboratory are as follows:

"K4599 Copy of handwritten letter dated 12/1/66, and page two of form bearing handwriting and hand printing of [redacted]"

"K4600 Photographs of signatures and hand printing of [redacted]"

"Result of examination: "

"It was determined that the unidentified questioned writings appearing on evidence submitted in this case and in the EASTCON case were not prepared by [redacted] the writer of K4599."

"The submitted known hand printing and signatures of [redacted] K4600, are not sufficiently comparable with the questioned writings appearing on evidence in this case and the EASTCON case for meaningful comparisons to be conducted."

Items bearing Laboratory Report #Q185 mentioned in this report were furnished to SA [redacted] on 4/22/71 by [redacted] who obtained it from [redacted]

It will be noted that the Laboratory has advised that copies of the press release of the CCIFBI found in a trash can in the Bryn Mawr, Pa., Municipal Parking Lot Q224, are additional copies of Q185.

Latent Fingerprint Section Report dated 5/7/71 states, "One latent fingerprint developed on Q185."

~~CONFIDENTIAL~~

PH 52-7165

"Latent fingerprints not identical to fingerprints of suspects named to date or with comparable areas of fingerprints previously reported in this case." U

Items described in the following Laboratory Report bearing Laboratory identifying numbers Q221 through Q223 were furnished to SA [redacted] by [redacted] who obtained them from [redacted]

WASHINGTON, D. C. 20535~~CONFIDENTIAL~~

To: SAC, Philadelphia (52-7165)

Date:

May 4, 1971

Re: MEDBURG

FBI File No.

52-94527

Lab. No.

D-710503045 LC

Specimens received 5/3/71

- Q221 Copy of envelope postmarked "PHIL PA 1A PM 9 MAR 1971," bearing typewritten address "THE DEFENSE COMMITTEE 20 S 12th ST PHILA., PA.," u
- Q222 Copy of press release beginning "On the night of March 8, 1971, the Citizens' Commission..." u
- Q223 Copy of newspaper clipping bearing typewritten message "Thought you might be interested..." u

Result of examination:

No indented writing of value was observed in the examination of Q221 through Q223. u

The Q221 through Q223 copies were not associated with the characteristic markings of the questioned copies prepared on Xerox Model 660 and 2400, previously submitted. The particular make or model copier used in preparing the submitted copies, Q221 through Q223, was not determined. u

It could not be determined whether the copies submitted were masters used to make additional copies. u

The original typewritten impressions appearing on Q223 are not identical with questioned typewriting appearing on specimens previously submitted. This typewriting is too limited to determine or associate this typewriting with a particular make or model typewriter. u

The questioned hand printing appearing on the news releases is too limited to determine whether this hand printing was or was not prepared by one person, or whether this hand printing was prepared by the writers of previously submitted items. u

Specimens Q221 through Q223 will be returned separately. Photographs are retained. u

Re: MEDBURG

b6
b7C

Specimens received 4/27/71

- K4497 Envelope bearing typewritten address "[redacted]...",
and enclosed mint carbon paper and carbon copy of
typewriting samples
- K4498 Envelope bearing typewritten address "School of Drafting...",
and enclosed mint carbon paper and carbon copy of
typewriting samples
- K4499 Change of address card bearing handwritten address
"Phila. Resistance 928 Chestnut Phila, Pa."
- K4500 Sheet of plain white bond paper
- K4501 Sheet of plain white bond paper
- K4502 Two mimeographed sheets bearing typewritten information
beginning "WEDNESDAY, MAY 5..."
- K4503 Sheet of torn yellow ruled paper bearing miscellaneous
handwritten and numerical notations
- K4504 Sheet of white paper bearing miscellaneous hand printed
and numerical notations beginning "COMING [redacted]"
- K4505 - K4511 Seven sheets of carbon paper

ALSO SUBMITTED: Two stencils (unused)

Plain white envelope (4 1/4-inch by 9 1/2-inch)

Nine white envelopes bearing inscription
on reverse "Pull out for Postal inspection"

Nine sheets of white bond paper

~~CONFIDENTIAL~~

Brown manila envelope

Nine larger sheets of white paper

One envelope bearing visible latent fingerprint

Four plain white envelopes (6 1/2 inches by 4 3/4 inches)

Result of examination:

It was determined that the typewriter impressions on K4497, K4498 and K4502 were not prepared with the questioned typewriters used to prepare the specimens previously submitted in this case.

Some of the typewriter impressions on the carbon paper, K4505 through K4511 are Royal elite style of type, which was also used to prepare Q185, previously submitted. However, due to the overtyping and lack of clarity in the carbon paper impressions, it could not be determined whether one typewriter was used in the preparation of all specimens.

It was determined that the submitted plain paper containing the U. S. Government watermark and the plain envelopes submitted were not used on specimens previously submitted in this case.

The hand printing, K4503 and K4504, is not sufficiently comparable with the hand printing on Q48 and Q49 or the questioned material in the EASTCON case for meaningful comparisons to be made.

The submitted evidence will be returned separately. Appropriate photographs have been made.

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~~~CONFIDENTIAL~~

Concerning Laboratory Report as to items #4 and 22 in the [redacted] ET AL" case, known hand printing of [redacted] the Laboratory Report states that efforts should be made to obtain additional hand printing of [redacted] for further examination and comparison with questioned hand printing on Q48 and Q49 in the MEDBURG case. U

b6
b7C

With respect to items Q200 through Q202 relating to the announcement that some members of the CCIFBI would appear at a meeting of the Peoples' Coalition for Peace and Justice on 4/29/71, and publicly take responsibility for removal of files from the FBI Office in Media, the Laboratory, for investigative assistance, advised that the IBM Courier style of type on the submitted mimeographed copies in instant case is the same style of type used to prepare the handout "Strategy Action Conference" of [redacted] submitted with letterhead memo dated 2/29/70 by the Washington Field Office. However, this handout and the submitted mimeographed copies are not sufficiently legible to determine whether all items were prepared on the same typewriter. U

It would be noted that the letter to the press announcing the above meeting states that a message was telegraphed to The Peoples Coalition for Peace on 4/27/71 from the CCIFBI. In an effort to determine if such a telegram was sent from the Philadelphia, Pa., area, SA [redacted] on 4/29/71, contacted [redacted] Western Union, Philadelphia, Pa., who searched the records of his company to determine if a telegram was sent to The Peoples Coalition for Peace and Justice, 1029 Vermont Street, Northwest, Washington, D.C., on April 26th, 27th or 28th by the Citizens' Commission to Investigate the FBI. No such message was found emanating from Philadelphia or the Philadelphia Metropolitan area. This would include Chester, Media, Ardmore, Swarthmore, Upper Darby and Jenkintown, all in Pennsylvania, and the Camden area in New Jersey. U

Title:

UNKNOWN SUBJECTS; ALSO KNOWN AS
"THE CITIZENS' COMMISSION TO INVESTIGATE
THE FBI"; BREAK-IN AND BURGLARY OF FBI
RESIDENT AGENCY, MEDIA, PA.,
MARCH 8-9, 1971

Character:

THEFT OF GOVERNMENT PROPERTY;
DESTRUCTION OF GOVERNMENT PROPERTY

Synopsis:

Copies of stolen documents mailed to [redacted] 4/19/71. Other copies passed out at demonstration sponsored by the Tribe of Ezekiel at Washington, D. C., 4/9/71. "Citizens' Commission to Investigate the FBI" announced on 4/28/71 intentions to claim responsibility for removal of files from FBI Media Office; on 4/29/71 announcement made that decision had been changed, and identities would not be revealed. Based on examination made by Smith-Corona, Marchant (SCM) representatives, it is their opinion copies of documents received by [redacted] 4/20/71 were reproduced on SCM portable copier. One representative believes he could possibly identify copies with other copies reproduced on same machine. Hand-printing, typewriter impressions, and other examinations conducted by FBI Laboratory. Results contained in Evidence Section of this report. No information developed indicating suspects have attempted to elicit lockpicking information or assistance from established locksmiths. Active member of Women's Liberation Movement advises she has never been in FBI Media Office and is unaware of any such visits by associates or friends in the Movement. Brief summary of activity and physical description of individuals set out where investigation has failed to indicate such individual involved in Media RA burglary.

DETAILS:

I. CRIME SCENE

A. Surfaced Documents

Investigation, as disclosed in this section of instant report, discloses that copies of stolen documents were mailed to [redacted] from Philadelphia, Pa., on April 19, 1971, and that additional copies were passed out at a demonstration sponsored by the Tribe of Ezekiel, Washington, D.C., on April 9, 1971. Application for this demonstration was filed by [redacted] U^{b6}
b7C

[redacted] Church of the Pilgrims, Washington, D.C., listed as one in charge of this demonstration, stated he received these documents in mail and believes envelope was postmarked in Harrisburg, Pa. U

On April 28, 1971, the Citizens' Commission to Investigate the FBI (CCIFBI) announced public meeting in Washington on April 29, 1971, at which time they would take responsibility for removal of files from FBI Media Office. About 75 people attended this meeting at which time it was announced that CCIFBI had decided not to identify themselves. U

Suspects [redacted]

[redacted] identified as being present.

FEDERAL BUREAU OF INVESTIGATION

Date April 30, 1971

On April 23, 1971, [redacted] furnished to SA [redacted] the following documents received by her on April 20, 1971, through the mail, all of which have been handled by numerous persons prior to being turned over to the FBI: U
b6
b7C

Envelope addressed to [redacted] postmarked April 19, 1971, at Philadelphia, Pa. U

Cover letter dated April 19, 1971, from Citizens Commission to Investigate the FBI, advising contents of a letter or liberated FBI file regarding recipient. U

Four page WFO letter to the Bureau dated November 17, 1969, serialized as PH 105-17385 - 1, entitled, [redacted] U

Two page Detroit letter to Philadelphia dated July 31, 1970, serialized as PH 105-17385 - 8, regarding same subject. U

Two page Philadelphia letter to the Bureau dated August 10, 1970, serialized as PH 105-17385 - 9, regarding same subject. U

One page memo of SA [redacted] to SAC, Philadelphia, Pa., dated December 31, 1970, serialized as PH 105-17385 - 11. U

One page memo of SA [redacted] to SAC, Philadelphia, dated February 26, 1971, not containing any block stamp or serial number. U

Bureau routing slip to Philadelphia dated September 3, 1970, in same case, not serialized, showing Bureau file 105-199950. U

One page of notes of SA [redacted] regarding investigation in PH 105-17385. U

- 4 -

On 4/24/71 at Ardmore, Pa. File # PHILADELPHIA 52-7165

by SA [redacted] /rav/wik Date dictated 4/28/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

FEDERAL BUREAU OF INVESTIGATION

Date 4/30/71

At 6:15 p.m. [redacted] telephonically contacted the Philadelphia Office and advised that he had found some material in a trash container which appeared to have some connection with the "Citizens' Commission to Investigate the FBI." At 6:30 p.m. the interviewing agents met [redacted] at the News Agency, 844 Lancaster Avenue, Bryn Mawr, Pa. b6
b7C

Directly in back of the News Agency is a large municipal parking lot. In the lot there is one open wire mesh trash container which was filled with cigarette butts, used kleenex, old newspapers, and the usual debris which is emptied from automobile trash bags. On top of the debris were a number of copies of a mimeographed press release distributed by the "Citizens' Commission to Investigate the FBI." This material was mimeographed on what appears to be inexpensive white mimeograph paper and also on a heavy, coarse creme colored paper. One of the items was a complete sheet; the other items had been torn in half and twisted. At the edges of several of the sheets they were charred indicating that either an attempt had been made to burn the material or it had been ignited by a lit cigarette or cigar thrown into the container.

[redacted] advised that he was employed as an engineer at the Johnsville Naval Air Station, Willow Grove, Pa., Extension [redacted]. He advised that he parks his car in this municipal parking lot each evening on his way home and buys newspapers at the News Agency. He resides at [redacted].

[redacted] said that on the evening of April 29, 1971, he parked his tan Volkswagen in about the middle of the parking lot and walked toward the Lancaster Avenue exit. As he passed the trash container he noticed the twisted papers laying on top and could read enough of the material so that it aroused his

On 4/29/71 at Bryn Mawr, Pa. File # Philadelphia 52-7165-SUB
by SAs [redacted] and [redacted] MBD/tac Date dictated 4/30/71

PH

interest. He picked up the one untorn copy and read it and also handled one of the twisted torn papers. After he had determined the contents and decided the FBI would be interested he left the material where it was and called the FBI.

[] said that at the time he arrived there were only a few cars left in the lot and no car was parked in the vicinity of the trash container. He did not see anybody throwing material into the container and could furnish no other information concerning who might have disposed of this material. U b6 b7C

SA'S [] retrieved from the above-mentioned trash container the following items: U

(1) One complete sheet of a mimeographed press release distributed by the "Citizens' Commission to Investigate the FBI" printed on white mimeograph paper. U

(2) Numerous sheets identical to the item described in number one which had been torn in half and twisted. Several of the sheets were charred. An exact count of these items was not taken since the agents did not want to disturb any latent fingerprints which might be contained thereon. U

Several of these items were on white mimeograph paper and others appeared on tan colored mimeograph paper. U

These items were located on top of debris contained in the trash can. U

On April 30, 1971, SAs [redacted] surveyed the parking lot where this evidence was recovered and conducted a neighborhood investigation. The parking lot has about 100 parking spaces which are metered for one, two, and ten hour periods. It was noted that cars came and went in a steady flow during the day. There is only one trash container in the lot, which apparently is emptied every other day and which is used by the drivers to empty ashtrays and trash bags, and to dispose of newspapers and other junk from their cars. U

The parking lot is also used as a walkway for people going to and from Lancaster Avenue. It was noted that Bryn Mawr Hospital is about a block away and many of the people from the hospital use the parking lot as a shortcut. Also a large number of high school students and other young people use it as a shortcut. In summation, this parking lot is an extremely busy and active place. U

The following people were contacted in an attempt to determine if anyone might have seen someone throw away the evidence in question: U

[redacted]

[redacted] employee "News Agency"

[redacted]

[redacted]

[redacted]

Germantown Savings and Loan
832 Lancaster Avenue

PH 52-7165

2

A Sun Oil Company credit slip was found in the trash at the same time as the evidence, bearing the name [redacted] whose second floor apartment overlooks the parking lot, advised that she recalls emptying her automobile trash bag at about 11:30 a.m., April 29, 1971, and said that the trash container was pretty well filled at that time. She cannot recall seeing anything of interest in the trash container. U b6 b7C

The other individuals interviewed stated that they observed no one loitering about the trash basket on April 29, 1971, and could furnish no information of value. U

[redacted] copper roofing contractor, [redacted] advised on May 3, 1971, that he had two employees working on the roof of the Germantown Savings and Loan, 832 Lancaster Avenue, on April 29, 1971. These employees, [redacted] advised they had not noticed the trash basket in question and noticed nothing except a lot of pedestrian and auto traffic in the parking lot. U

WFO: 52-12554

JMW:jmw

1

The following investigation was conducted by SAs
[redacted] at Washington, D.C. (WDC):

On April 1, 1971, [redacted] Division of Special Events, National Park Service, National Capital Parks, 1100 Ohio Drive, S.W., WDC, Room number 110, advised that on March 25, 1971, an application was received by them for a demonstration to be held on April 9, 1971. She exhibited the application which reflected that it was completed by a [redacted] [redacted] 233 8th Street, N.E., WDC, telephone number [redacted]. Sponsor was listed as The Tribe of Ezekiel, 233 8th Street, N.E., WDC. Purpose was stated as "to mime the dying city (Washington, D.C.)". Person in charge listed as [redacted] [redacted] telephone number [redacted] listed as "veteran demonstrator".

[redacted] stated that the application was typed at her office by the persons who completed it, who she does not recall.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 4/15/711

On April 9, 1971, a demonstration sponsored by the Tribe of Ezekiel was held commencing at the Lafayette Square, 1600 Pennsylvania Avenue, N.W., and continued to the Internal Revenue Service Building at 12th and Constitution Avenue, N.W., and then proceeded to the United States Department of Justice Building at 10th and Constitution Avenue, N.W. During the demonstration Reverend PHILLIP EUGENE WHEATON addressed the crowd and advised them that he was going to distribute to them copies of a Federal Bureau of Investigation document which had been stolen from the Resident Agency in Media, Pennsylvania. Reverend WHEATON stated that he had received this document anonymously in the mail and desired to have it returned after the individuals in the crowd had read it. u

Special Agent [] then received from an unknown male a copy of a memo of Special Agent (SA) [] dated June 17, 1970, and captioned "National Association of Black Students Convention." SA [] received his copy of the memo from a white male, approximately 6 feet to 5 feet, 10 inches tall, weighing approximately 145 to 150 pounds, thin build, with long brown hair. He appeared to be approximately 18 to 20 years of age. The document received appeared to be a Xerox copy and was retained by SA [] initialed, dated and subsequently turned over to SA [] of the Washington Field Office of the Federal Bureau of Investigation.

4/9/71 Washington, D.C. WFO 52-12554
Interviewed on _____ of _____ File # _____
SA [] TEB:mab/lmg 4/14/71
by _____ Date dictated _____

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 4/13/71

1

While covering a demonstration on Constitution Avenue, Northwest, Washington, D.C., at the Department of Justice, on April 9, 1971, at approximately 1:40 p.m., a white male about 16 to 18 years old, with a plaid shirt, dark trousers and a dark yellow wind breaker had an off-white file folder in his left hand. The folder was open and with his right hand, the white male passed out Xerox copies of a document from the files of the Media Resident Agency of the FBI.

Prior to this document being passed out to the participants of this demonstration, a minister, described as a white male about 43 to 45 years old, receding hair-line, wearing a dark grey suit, with a black cloth attached to a white collar spoke to the crowd. He stated something to the effect:

"There are those among you who will now pass out a document from an FBI office which was received anonymously by us, in the same fashion as they (the documents) were received by the newspapers and various government officials throughout the country. This document illustrates the FBI's use of black people spying on each other. We would like you to read it and we will co-operate by returning the documents to the Justice Department just as others have done."

"Now all of you who have received this document, hold them up and we will collect them and return them to the Department of Justice."

The same white male who was observed handing out the documents, was observed to collect them. It was also observed that this person has a very bad case of "acne."

[redacted] Church of the Pilgrims, 2201 P Street, N.W., was interviewed regarding the identity of three unknown white males who were observed on April 9, 1971 distributing copies at the Constitution Avenue, mid-block entrance of the Department of Justice of a Federal Bureau of Investigation document taken in the burglary of the Media, Penn. Resident Agency, and furnished the following information:

[redacted] advised that on or about April 1, 1971, he received by regular mail a white envelope containing a "Xerox" copy of the subsequently distributed Federal Bureau of Investigation document. He said the mentioned envelope had a typewritten address of 2201 P Street, N.W., bore no return address and, he believes, had a Harrisburg, Pennsylvania postmark. [redacted] stated that he subsequently destroyed the envelope.

[redacted] stated that he took the original Xerox copy and, at a commercial establishment located at 19th and M Streets, N.W., had 100 copies of it reproduced. He gave the reproduced 100 copies to one [redacted]

[redacted] gave the three unidentified white males the reproduced copies which were subsequently distributed by them at the April 9, 1971 demonstration.

[redacted] stated that [redacted] is affiliated with the "Catholic Peace Fellowship."

At the conclusion of the demonstration, he said he placed the "original Xerox" copy of the Federal Bureau of Investigation document at the entrance to the Justice Department at mid-block on Constitution Avenue, N.W. He stated he does not know the identity of the three persons passing out the documents.

March 8, 1971. Post large "Yes" or "No" response in Ninth Floor middle window on Vermont Avenue side of building before 9:00 a.m., Wednesday, April 28. If "Yes" will contact later for security and possible sanctuary arrangements. U

"The Citizens' Commission to Investigate the FBI

"Their affirmative response of consent was conveyed, as requested, this morning. Therefore, we invite your coverage of tomorrow's meeting at which time some members of 'The Citizens' Commission to Investigate the FBI' will publicly take responsibility for the removal of files from the FBI office in Media, Pennsylvania on March 8, 1971. U

"We were prompted to make this public appearance after learning of the remakrs made Friday by Attorney General JOHN MITCHELL on the danger to national security posed by 'domestic subversives.' We agree with JOHN MITCHELL that the right of the public to protect itself is 'implicit in the Constitution's very existence,' but we believe that right is best upheld when citizens can scrutinize and control their own government and its agencies. U

"Because we believe the FBI has betrayed its democratic trust, we wish to present evidence for this claim to the open and public judgement of our fellow citizens. U

"We also wish to reiterate two other reasons for our action on March 8th: U

"--our belief that a law and order which depends on intimidation and repression to secure obedience can have but one name: tyranny. U

"--our belief that democracy can survive only in an order of justice, of an open society and public trust. U

WFO 52-12254

3

"Our initial report tomorrow will cite some examples of the nature and extent of surveillance carried on by the FBI, particularly against groups like The Peoples' Coalition For Peace and Justice and others who have come to Washington this week to dramatize their demands for an end to the war, and for the necessity of a more just, humane and peaceful society. U

"We will again, tomorrow, invite others to join us in building U such a society that does not wage nor threaten war, which distributes human and material resources fairly, and which operates on the basis of justice rather than fear.

"We will also report on the activities of other members of The Citizens' Commission to Investigate the FBI who are taking it upon themselves to investigate the extent of illegal practices carried on by the 59 field offices of the FBI. Practices such as eavesdropping, entrapment, and the use of provocateurs and informers." U

FEDERAL BUREAU OF INVESTIGATION

Date May 10, 1971

On April 29, 1971, a meeting sponsored by The Peoples Coalition For Peace and Justice was held at St. Stephen of the Incarnation Church, 16th and Newton Streets, N.W., Washington, D.C. Reportedly in connection with this meeting, individuals connected with the Citizens Commission to Investigate the FBI (CCIF) would reveal themselves and accept responsibility for the break-in and theft of documents from the Media, Pa., Resident Agency of the FBI on March 8, 1971. U

By 7:00 p.m., several of the news media were in attendance with camera equipment assembled in preparation for the surfacing of members of the CCIF. U

As of 7:25 p.m., the news media was advised that the surfacing would not take place and the crews began dismounting camera equipment and leaving the church. U

An unidentified white male then read a statement to approximately 75 people in attendance. In essence, this statement announced that members of the CCIF had decided not to surface as previously announced. This decision not to surface was based on the fact that the CCIF felt that any such appearance would result in their arrest by FBI Agents. Any such arrests would result in violence at the scene of the arrest and also in connection with demonstrations planned in Washington, D.C., during the period April 30, 1971, to May 1, 1971. U

During the above activities, the only individuals from Philadelphia, Pa., who were observed, were [redacted] of the Ad Hoc Committee to Defend the Harrisburg Six, 20 South 12th Street, Philadelphia, Pa., and [redacted] a member of Philadelphia Resistance, 611 South Second Street, Philadelphia, Pa. U b6 b7C

At approximately 7:50 p.m., [redacted] indicted member of the Harrisburg Six, was introduced and delivered a ten minute talk from notes. In her talk, [redacted] alleged the U.S. Government is waging a campaign of suppression against political dissenters. The Government wages this war through U

After the departure of [] the 75 attendees remained for folk singing. U

FEDERAL BUREAU OF INVESTIGATION

Date 5/4/71

At approximately 3:05 p.m., on April 29, 1971, a physical surveillance was instituted at 233 8th Street, N.E., Washington, D.C. (WDC). U. b6 b7C

At approximately 3:40 p.m., three white males and two white females departed the residence and entered an orange, Volkswagen fastback, bearing Pennsylvania License [redacted]. The car was surveilled to St. Stephen and The Incarnation Church, 16th and Newton Streets, N.W. The car parked on Center Street, adjacent to the Church, and the five occupants entered the church. U.

One of the females was identified as [redacted] U.

FEDERAL BUREAU OF INVESTIGATION

Date May 11, 1971

On April 29, 1971, a gathering was held at St. Stephen of the Incarnation Church, 16th and Newton Streets, Washington, D.C., sponsored by the Peoples Coalition for Peace and Justice.

It was said by people in the Church that the Citizens Committee to Investigate the FBI was scheduled to surface and admit the break-in to the Media, Pa., FBI Office. However, at approximately 7:20 p.m., a white male addressed the audience of approximately 75 people and stated that the Peoples Coalition had received a telegram at 4:00 that day from the Citizens Committee, which said that the Committee decided not to surface, due to possible violence at the Church.

At this gathering, [redacted] defendant in the Harrisburg case, spoke for approximately ten minutes on the alleged unfairness of the FBI and other governmental agencies. Also, [redacted] and [redacted] both associated with the Philadelphia Resistance, were observed at the meeting although neither spoke.

B. Investigation Relative to Use of
Smith-Corona, Marchant (SCM) Copier

Copies of stolen documents received by GEORGE DUVAK, Glenolden, Pa., on April 20, 1971. Based on examination made by SCM representatives, it is their opinion copies were reproduced on SCM portable desk-type copier. Photo Copy Supervisor, SCM, believes he could possibly identify copies with other copies reproduced on same machine. 4

PH 52-7165

As previously reported, on April 20, 1971, GEORGE DUVAK, [redacted] Glenolden, Pa., received a letter from the "Citizens' Commission to Investigate The FBI," together with copies of FBI investigative documents. U

b6
b7C

Documents received by GEORGE DUVAK have been designated as FBI Laboratory identifying numbers Q-163 through Q-167. U

The following investigation was conducted by SA [redacted] U

[redacted] Sales Supervisor, Smith-Corona, Marchant (SCM), 1701 Vine Street, Philadelphia, Pa., telephone number [redacted] was contacted on April 26, 1971, and advised as follows:

The SCM Copiers Division handles seven different models. All of these machines use the same chemical process in reproduction. The majority of their machines are sold outright, particularly the portable models. These sales at times include a service contract. [redacted] referred SA [redacted] to [redacted] the Photo Copy Supervisor for SCM:

[redacted] advised that it would be necessary to view specimens run on the SCM machine.

On April 28, 1971, [redacted] viewed six reproduced copies that have been received by GEORGE DUVAK and made these comments:

He believes that these six reproduced documents were made on an SCM copier machine and is of the opinion they were reproduced on Model 33 or 44 or 66 or 88 or 78, portable desk-top type.

The markings on several of these copied documents reveal perpendicular lines. He is of the opinion that they are caused by the windowless glass on the copying machine. The borders on several of these documents, particularly at the top and bottom, indicate that the machine's registration is out of order and needs adjusting. The chemical microstatic replenisher is very dirty, indicating that it has not been changed for some time, and he believes it is an older model portable copier. U

The carbon spots along the margin edge of the left hand corner on some of these specimens are possibly attributable to the fact that one of the two lamps in the copying machine on the left side is powdered by some substance.

If the machine had been regularly serviced or the owner of it was called upon by sales representatives of SCM, this problem would have been resolved. Normally, an SCM machine is serviced approximately twice a year.

[] is of the opinion that this machine in question is owned by an individual who does not have a contract for servicing and the machine was not used often. [] strongly feels that the model 44 portable desk-top type was used to copy these documents.

b6
b7C

[] informed that he has four technical representatives that service the SCM copying machines in the City of Philadelphia.

[] informed that because of the condition of the chemicals in the machine and the finished product that the machine in question is reproducing, if he knew where the machine was located and obtained samples from it he could possibly tell from the copies obtained if it is the same machine that reproduced the documents that he examined.

Concerning model #78, portable desk-top copier, this is a new model that has been in service for approximately eight months and there are approximately ten of these machines in the City of Philadelphia. They are constantly having trouble with this model and they are being serviced on a regular basis.

[] Sales Manager, SCM Copiers and Supplies, 1701 Vine Street, Philadelphia, Pa., on April 28, 1971, advised as follows:

Model #33, portable desk type, was first manufactured and marketed by SCM in 1961. This machine has been developed in many respects and replaced by model #44.

At the present time, none of the portable desk type copy machines are leased in Philadelphia. They have been purchased outright by customers.

At the time a machine is sold by the Sales Division, a salesman continues to call on these customers and check the sample quality of the machine. However, a machine could be purchased by a customer of the portable-type and subsequently, this customer desires a console model and many times the customer sells the portable himself. In such an instance, the owner of the portable machine would not necessarily have a service contract and this machine would actually be lost as far as tracing it.

They do have records that go back for three years on machines that have been sold by sales personnel of SCM. He remarked that these records are not complete in that many of the machines have been sold to customers without a service policy,

and not through SCM representatives because there are four other dealers in this area that handle these machines. If the sales through these firms was with a service policy, SCM do not have a record of them in the Sales Department but the Service Department would.

[] checked the documents referred to above and he is of the opinion that they were reproduced on a portable copier, possibly model #44.

b6
b7C

[] Technical Manager, SCM, Box 350, Phoenixville, Pa., who is in charge of the speciality coating operation, on April 29, 1971, furnished this information:

After examining several of the documents received by [] he made these comments:

He weighed one sheet of paper and it was 53.75 pounds per ream. Each ream consists of 3,000 square feet of paper. The caliper of one of these sheets of paper is 2.83 mills. The sheet of paper is 8 1/2" x 11" and its cut grain is long. The squareness of the paper is safely within the SCM specifications for such copying sheets.

The copies examined were not from a roll of copier paper. Conductive treatment used ionically is quaternary ammonia compound. It was made possibly by the Dow Chemical Company and a taste made from one of the documents is like that of ECR 34 chemical, a polyvinyl Benzyl Amine. It is a very bitter flavor and this is characteristic of the Dow chemical product.

Concerning the perpendicular line on the back of each of the documents examined, these markings are indicative of the fact that the documents were reproduced on an SCM copying machine, the portable desk-top type, namely 33, 44, 66, 78 and 88. These markings result from the toner rib, which is typical of the markings left by these portable machines. On several of the documents in the center of the sheet, there is a line that runs from the top to the bottom. This marking, in his opinion, was left by the feed switch or the lamp fold. These markings are also typical of the results achieved when reproducing items on the above stated portable models of SCM copiers. On the front of each of the copied documents there are perpendicular lines reasonably parallel and they too are characteristics obtained when copying on these portable SCM copiers.

The opinion of [] is that the exposure setting on the machine used to reproduce these documents is underexposed. He believes that the individual who used the copying machine did not know what they were doing. His opinion, also, is that an old model 33 or an old model 44 SCM copying machine was used to reproduce the documents he was examining.

b6
b7C

If a new portable-type copying machine had been used the black border at the bottom and right hand borders of each of the copied documents would not contain belt marks. These marks result when a conveyor belt, a narrow strip of canvas approximately 2 1/2" to 3" wide, is used in the copying machine. It is the carrying mechanism of the paper that is being reproduced.

[] is of the opinion that these documents were definitely reproduced on an SCM copying machine portable-type, and it was either on a model 33 or 44. He stated there are no characteristics on the reproduced documents, unique to the machine they were copied on, that could be used to identify the machine used to reproduce these specimens.

[] Production Manager, SCM, Box 350, Phoenixville, Pa., on April 29, 1971, furnished this information: u

He concurs that the older model 33 or 44 was used to reproduce the above referred to documents. There are no characteristics that distinguish these reproductions to enable investigation to identify the machine from which it came positively.

[] advised that the SCM machines are manufactured at Libertyville, Ill., and that contact with the manufacturing plant would not have produced as much information as was gathered at the Phoenixville Plant, where all the paper is processed. He again examined the questioned documents and stated that there are no markings on them that would distinguish the machine used to reproduce them.

[] advised there are approximately 1,000 copiers in the City of Philadelphia.

The Norristown, Pa., SCM Office covers Montgomery and Delaware Counties in Pennsylvania; the Wilmington, Del., SCM Office covers the State of Delaware and Chester County, Pa.

If a list of customers of SCM Copiers is desired, the request should be referred to National Sales Manager SID REISCH, 299 Park Avenue, New York City, N.Y.

C. FBI LABORATORY AND LATENT FINGERPRINT SECTION -
EXAMINATION OF EVIDENCE

The following is a summary of pertinent FBI Laboratory and Latent Fingerprint Section examinations as set out in this report:

Examination and comparison of various documents in instant case with documents in various draft board break-ins conducted.

Laboratory concluded that one item in case, [REDACTED] ET AL" involving two Selective Service Boards in Philadelphia, bore hand printing with characteristics in common with hand printing on Q48 and Q49 in MEDBURG.

b6
b7C

Typing specimens were submitted by the Boston Office in a Selective Service break-in, by the New York Office in a case involving vandalization of Local Boards on July 2, 1969, in New York City and by the Indianapolis Office in case captioned, "UNSUB; aka 'Beaver 55', ET AL." The Laboratory determined typewriter impressions on specimens submitted in these cases were not prepared with the typewriter used in preparing questioned specimens in the MEDBURG case.

The Laboratory has concluded that the hand printing on Q208 in the EASTCON case was prepared by the same person whose hand printing appears on letter and forms signed by [REDACTED] suspect in MEDBURG. The Laboratory was unable to determine whether [REDACTED] did or did not prepare the questioned hand printing in MEDBURG.

The Laboratory also has determined that the typewriter impressions on envelope mailed to [REDACTED] and to [REDACTED] both containing copies of stolen documents, most closely resemble Laboratory standards for Ransmayer style of type. This style of type previously used in preparation of envelope Q1, containing items mailed to [REDACTED] on March 9, 1971.

PH 52-7165

It also was determined that typing impressions on envelope and some items mailed to [redacted] on April 19, 1971, from Philadelphia, Pa., most closely resemble standards for Ransmayer style of type.

The Laboratory examination of staples affixed to surfaced FBI documents disclosed that at least 20 different staplers were used.

U b6
b7C

PH 52-7165

1. Comparison of Documents in Local Draft Board Break-Ins with Questioned Documents.

Set forth below are results of examination of documents submitted to the Laboratory in the case captioned, [REDACTED] ET AL; DESTRUCTION OF RECORDS AT SELECTIVE SERVICE SYSTEM BOARDS AT 1421 CHERRY STREET, 3701 NORTH BROAD STREET, 3702 KENSINGTON AVENUE, PHILADELPHIA, PENNSYLVANIA; FEBRUARY 7, 1970." U b6 b7C

Specimens received May 4, 1971

"Q225 (MEDBURG) Two hundred seventeen miscellaneous documents and physical evidence submitted in the [REDACTED] case for comparison with the MEDBURG and EASTCON cases U

"Result of examination:

"Due to the lack of sufficiently comparable hand printing, it could not be determined whether any of the questioned material in the MEDBURG or EASTCON cases did or did not originate from the same source or sources as the material submitted and designated Q225 in the MEDBURG case. However, item number 94, which is a part of Q225, is a copy of the "Underground Press Syndicate" that contains hand printing. This hand printing has some characteristics in common with the questioned hand printing on Q48 and Q49 in the MEDBURG case, which suggest the desirability of obtaining additional hand printing from the writer of this material for further comparison. The submitted typewriter impressions were not associated with the questioned typewriters in MEDBURG." U

The Boston Office on April 30, 1971, submitted to the Laboratory copies of various documents relating to draft board break-ins within that Division. These documents, identified by the Laboratory as K4625 through K4635 were examined by the Laboratory with the following results: U

Specimens received 5/3/71

- K4625 Copies of four-page document entitled "The RHODE ISLAND POLITICAL OFFENSIVE FOR FREEDOM"
- K4626 Copies of one-page typewritten document beginning "In the two months since an indictment against me..."
- K4627 Copies of two-page typewritten document entitled "STATEMENT OF THE PROVIDENCE THREE"
- K4628 Copies of one-page typewritten document entitled "the Boston Eight"
- K4629 Copies of one-page typewritten document entitled "WHAT ARE YOU DOING ON ARMED SERVICES' DAY?"
- K4630 Copies of hand printed document entitled "DRAFT CARD TURN-IN"
- K4631 Copies of UNION FOR NATIONAL DRAFT OPPOSITION application forms
- K4632 Copies of one-page typewritten form entitled "Suggested Procedure for UNDO speakers at College Campuses and other Speaking Engagements"
- K4633 Copies of UNDO application form
- K4634 Copies of one-page typewritten and hand printed document entitled "END the war by ending the draft ...and end the draft together"
- K4635 Copies of one-page typewritten document entitled "GUIDELINES FOR UNDO ORGANIZERS"

Page 1

(cont

Result of examination:

It was determined that the typewriter impressions on K4625 through K4635 were not prepared with the questioned typewriters used in the preparation of specimens previously submitted in this case. U

The submitted evidence will be returned separately. U
Photographs are retained.

PH 52-7165

The New York Office on April 29, 1971, submitted to the Bureau copies of typewritten documents relating to the vandalization of Selective Service Local Boards, Panel B, 321 West 44th Street, New York City, on July 2, 1969. The Laboratory report relating to examination of these documents is follows: U

REPORT
of the

**FEDERAL BUREAU OF INVESTIGATION
WASHINGTON, D. C. 20535**

To: SAC, New York (52-10018)

Date: May 3, 1971

Re: MEDBURG

FBI File No.

52-94527

Lab. No.

D-710503029 LC

Specimens received 4/30/71

- K4594 Copies of typewritten document beginning "We did it. We interfered with the ability..."
- K4595 Copies of typewritten document beginning "to the men and women who work here..."
- K4596 Copies of typewritten document beginning "TUESDAY NIGHT JULY 1, a group of women destroyed..."
- K4597 Copies of typewritten document beginning "(Tuesday night a group of women destroyed 1-A..."

Result of examination:

It was determined that the typewriter impressions on K4595 and K4596 were not prepared with the questioned typewriters used in the preparation of specimens previously submitted in this case.

The typewriter impressions on K4594 and K4597 are the same style of type as the typewriter impressions on Q261 and additional copies of this press release dated 4/28/71. However, the submitted copies are not sufficiently legible for a detailed typewriter examination to be conducted. Therefore, it was not possible to determine whether the questioned and known typewriter impressions were prepared on one typewriter.

The submitted evidence is retained at the Bureau.

PH 52-7165

The following is results of Laboratory examination of items submitted to the Bureau by the Indianapolis Office on April 30, 1971, in connection with the case entitled, "UNSUBS; aka 'Beaver 55,' ET AL; SSA; DGP." U

"Result of examination:

"It was determined that the typewriter impressions and hand printing in the "Beaver 55" case were not prepared with the questioned typewriters or by the writer of the questioned hand printing on specimens submitted in the MEDBURG case." U

2. Handwriting and Handprinting of Suspects and Associates of Suspects

Specimens received April 29, 1971 from Boston

"K4570 Application for Employment form (two-page) hand printed letter dated 2/14/71, and copy of Monthly Supervision Report form, all bearing hand printing of [redacted] U

b6
b7C

"Result of Examination:

"It was determined that the hand printing on Q208, the diagram in the EASTCON case, excluding the handwriting at the top of the diagram, was prepared by the person who prepared the hand printing on K4570, exemplars in MEDBURG. U

"Due to the presence of characteristics in the questioned hand printing on Q48 and Q49, in the MEDBURG case, which could not be explained on the basis of the available known hand printing, K4570, it could not be determined whether the questioned material was or was not prepared by the writer of K4570." U

PH 52-7165

Request received May 3, 1971

Request comparison of items 4 and 22 in case entitled, [redacted] ET AL; SSA - DGP, CONSPIRACY," with specimens Q48 and Q49 in MEDBURG case. 4

b6
b7C

"Result of examination:

"The questioned hand printing appearing on Q48 and Q49, previously submitted in the MEDBURG case, was compared with the available known hand printing of [redacted] items designated as 4 and 22 in the [redacted] case. Some hand printing differences were noted as a result of these comparisons; however, the presence of some characteristics which could not be explained on the basis of the comparable hand printing available prevented a definite opinion being reached as a result of these comparisons." 4

Item bearing number K4691 set forth below bears the signature of suspect [redacted] 4

"K4691. Handwritten letter dated January 9, 1970, copies of three-page handwritten and hand printed Student Application Form, and copies of two-page Student Evaluation of Work Situation form.

"Result of examination:

"Due to the limited nature of the comparable handwriting and hand printing, it could not be determined whether the writer of K4691 did or did not prepare any of the questioned hand printing on specimens previously submitted in the MEDBURG case or the questioned material in the EASTCON case.

Set forth below is a Laboratory Report showing results of examination of specimens K4618 through K4624 submitted by the Pittsburgh Office. These specimens were obtained from the Federal Reformatory for examination at Alderson, West Virginia. It will be noted that [redacted] 4

Re: MEDBURG

Specimens received 4/23/71

- Q156 Envelope postmarked "PHILADELPHIA, PA 5A PM 19 APR 1971," bearing typewritten address [redacted]
[redacted]
- Q157 Accompanying copy of typewritten letter dated 4/19/71, beginning "Here is a copy of the file which the FBI kept on you..."
- Q158 Accompanying copy of Memorandum dated 2/4/64, beginning "The American Consul, Brussels, Belgium..."
- Q159 Accompanying copy of Routing Slip dated 2/19/64, bearing hand printed caption [redacted] IS - R"
- Q160 Accompanying copy of Memorandum dated 3/16/64, beginning "The visa file pertaining to the captioned individual..."
- Q161 Accompanying copy of Routing Slip dated 3/28/64, bearing typewritten caption [redacted] IS - R"
- Q162 Accompanying copy of typewritten two-page memorandum dated 5/28/64, beginning "A check of the indices of this office..."
- Q163 Envelope postmarked "PHIL A, PA 5A PM 19 APR 1971," bearing typewritten address "Mr [redacted] George Duvak [redacted] Glenholden Pa."
- Q164 Accompanying copy of typewritten letter dated 4/19/71, beginning "Here is a copy of the file which the FBI kept on you..."
- Q165 Accompanying copy of two-page airtel dated 9/15/70, beginning "Re WFO airtel to Bureau 7/23/70; and Philadelphia airtel..."

b6
b7C

U

Q166 Accompanying copy of two-page Memorandum (undated), beginning "Reference: Philadelphia airtel to Bureau, 9-15-70..." U

Q167 Accompanying copy of handwritten document beginning "continued that she is of the opinion..."

Result of examination:

The typewriter impressions on the envelopes, Q156 and Q163, and the letters, Q157 and Q164, most closely resemble the Laboratory standard for Ransmayer style of type. This same style of type was used in the preparation of the envelope, Q1, previously submitted in this case. However, due to the limited nature of the typewriter impressions on Q1, it could not be determine whether one typewriter was used in the preparation of these specimens. U

The accompanying copies appear to be copies prepared on an SCM copier. No watermarks, indented writing of value, or other marks which would indicate the immediate source of this material were noted on the submitted copies. The stamps on the envelopes, Q156 and Q163, are from a sheet or sheets of stamps. U

Q164 through Q167 are being returned to Philadelphia. U
The remaining submitted evidence will be returned separately.
Photographs are retained.

PH 52-7165

The Latent Fingerprint Section in report dated May 10, 1971, advised that "no latent prints of value were developed" on the above specimen Q224. The following results were reflected on Laboratory examination of surfaced items mailed to [REDACTED] as set forth under Section A above.

- Q193 Page two of two-page Memorandum dated 7/31/70, beginning "An inquiry on 7/28/70, at Harper..."
- Q194 Page one of two-page memorandum dated 9/10/70, beginning "Re Philadelphia letter to Bureau..."
- Q195 Page two of two-page memorandum dated 8/10/70, beginning "PHILADELPHIA: At Philadelphia, Pa..."
- Q196 Copy of Memorandum dated 12/31/70, beginning [redacted] .."
- Q197 Copy of Memorandum dated 2/26/71, beginning "Subject was interviewed at her residence..."

- Q198 Copy of Routing Slip dated 9/3/70, beginning
"Reurlet 8/10/70. In your consideration of this matter..." U
- Q199 Copy of sheet of paper bearing handwritten and
numerical notations beginning [redacted] .." b6 b7C

Result of examination:

Specimen Q187 is an additional copy of Q157 and Q164, U
previously submitted in this case.

The typewriter impressions on Q186 and Q187 most closely U
resemble the Laboratory standard for Ransmayer style of type. This
same style of type was used in the preparation of Q156, Q157 and
some other specimens previously submitted in this case. The
submitted copies are not sufficiently legible for detailed typewriter
examinations to be made. Therefore, it could not be determined
whether the same typewriter was used in the preparation of all
specimens having Ransmayer style of type.

The submitted copies appear to be additional copies U
prepared on the SCM copier. No indented writing of value,
watermarks, or other marks which would indicate the immediate
source of this material were noted on the submitted specimens.

The stamps on Q186 are from a sheet of stamps. U

The submitted evidence will be returned separately. U
Photographs are retained.

PH 52-7165

Items Q200 through Q220 described in the following Laboratory Report consisted of items left with various members of the press at the National Press Building, Washington, D.C., on April 28, 1971 and announced a public appearance by members of the CCIFBI on April 29, 1971, as set out above under Section A above.

Specimens received April 29, 1971, from Washington Field Office.

- "Q200 Yellow manila envelope bearing sticker with words "PEOPLES COALITION FOR PEACE AND JUSTICE..."
- "Q201 Accompanying two-page mimeographed memo dated April 28, 1971
- "Q202 - Q220 Ten envelopes bearing stickers with the name "Peoples Coalition for Peace and Justice," and nine two-page letters from the Citizens' Commission to Investigate the FBI.

"Result of examination:

"The typewriter impressions on the submitted mimeographed copies most closely resemble the IBM Courier style of type. This tute of type has not been used on specimens previously submitted in this case.

"No watermarks, indented writing of value, or other marks were noted on the submitted evidence which would indicate the immediate source of this material."

4. Staple examination

Concerning the examination of staples as set forth in the following Laboratory Reports, it will be noted that the Laboratory has concluded that 22 different staplers were used to staple the following items. An analysis of the report discloses that stapler #1, #2, #3 and #4 were used to staple items left with Congressman MITCHELL; that stapler #3 and #12 were used to staple items sent to [redacted] Washington

PH 52-7165

Correspondent for the "Los Angeles Times"; that staplers #3, #12 and #13 were used in stapling the items hand-delivered to the Justice Department Building; that staplers #4, #16 #17 and #19 were used to staple items mailed to Chicago correspondent for the "Los Angeles Times"; that staplers #5 and #6 were used on the items mailed to Senator MC GOVERN; and that stapler #20 was used on items mailed to the editor of the "New York Times", New York, N.Y.

Evidence received from WFO 4/12/71

Q148 - Q150 (PC-F6150 FA)

Result of examination:

Not all of the documents listed above were stapled. The staples in those that were stapled were removed and protected for examination. Four types of staples were represented as follows:

1. Flat wire staples, Swingline SF-1, Ace #2025 Standard, Ace #400 Standard, Ginnco #210. Such staples are used in Swingline, Aceliner, Ace Pilot and all staplers classified as standard office staplers.
2. Round wire staples with flat cut-off ends. It was not possible to find locally, staples of this type. They are, however, comparable in size to the flat wire staples in (1) above and useable in all staplers classified as standard office staplers.
3. Round wire staples with chisel points, Swingline #77, for use in Swingline #77 Staplers (only two such staples, Q116 and Q120, appeared).
4. Heavy gauge flat wire staple, manufacturer and type of stapler in which used not yet determined (only one such staple, Q150, appeared).

By toolmarks comparisons it was possible to group staples from the documents noted as having been stapled with the same stapler. At least 20 different staplers are represented. Those documents, the staples of which were identified stapled by the same stapler, are as follows:

<u>Stapler</u>	<u>Staples Identified</u>	<u>Type of Staple</u>
1.	Q17 and Q28 (1)	Flat wire
2.	Q19, Q25, Q26, Q27, Q30	Flat wire
3.	Q28(2), Q31(1), Q53, Q54, Q58 Q59, Q62(2), Q64, Q74, Q76, Q78	Round wire, flat cut-off
4.	Q31(2), Q114 (1)	Flat wire
5.	Q35, Q41	Flat wire
6.	Q36, Q37, Q43	Flat wire
7.	Q42, no identification	Flat wire
8.	Q46, no identification	Flat wire
9.	Q47, no identification	Flat wire
10.	Q52, no identification	Round wire, flat cut-off
11.	Q62 (1), no identification	Round wire, flat cut-off
12.	Q65, Q69, Q79, Q81	Round wire, flat cut-off
13.	Q73 (1), Q73 (2)	Round wire, flat cut-off
14.	Q80, no identification	Round wire, flat cut-off
15.	Q114 (2), no identification	Flat wire
16.	Q115, Q119	Flat wire
17.	Q116, Q120	Round wire, chisel point
18.	Q117, no identification	Flat wire
19.	Q118, Q119, Q121(1), Q121 (2) (Some similarities noted between Q117 and above group)	Flat wire
20.	Q132, Q133, Q134, Q140	Round wire, flat cut-off
21.	Q141, no identification	Round wire, flat cut-off
22.	Q150, no identification	Flat wire, heavy gauge

Some of the stapled documents were stapled with two staples. For identification purposes they were marked, for example Q28(1) and Q28(2), Q31(1) and Q31(2), etc. The two staples in Q28 and Q31 were of a different type and stapled with different staplers. In specimen Q73 it was possible to identify the two staples with the same stapler. In specimen Q121 it was also possible to identify the two staples with the same stapler. The staples in Q62 were of the same type but stapled with different staplers. The same is true of the two staples in Q114.

All of the staples are being retained in the Laboratory and are currently being compared with staples used to staple the known documents submitted for comparison.

[redacted]

On March 20, 1970, [redacted] was arrested in Philadelphia in connection with a "Vietnam Protest" and charged with Disorderly Conduct, Resisting Arrest and Breach of Peace. He was again arrested in Philadelphia on May 24, 1970, and charged with Illegal Possession of Narcotics. At an anti-war demonstration in Washington, D.C., on May 9, 1970, [redacted] claimed to have two chemicals in his possession which would create a vast fire bomb when combined. During a rally in Philadelphia July 26, 1970, [redacted] joined others in hauling down the American Flag and hoisting up the flag of the National Liberation Front. On December 2, 1970, in a Philadelphia Courtroom, [redacted] whipped out a toy gun, a cap pistol resembling a .38 caliber revolver, after being confronted by a guard. [redacted] was on the "Plain Dealer" Staff and wrote many articles for the paper on such matters as guns. The "Plain Dealer" was an underground newspaper in Philadelphia that no longer exists. On October 3, 1970, [redacted] was arrested and charged with Disorderly Conduct.

SAC Joe D. Jamieson, Philadelphia Office, telephoned. He stated that two agents assigned to Philadelphia and who have been working on the MEDBURG case, observed a panel truck in the vicinity of the contract garage used to store Bureau automobiles in Philadelphia. It appeared that the truck was being used to case the premises. The agents recognized the truck and the driver, [redacted] who is one of the suspects in the MEDBURG case. *U*

SAC Jamieson stated that the Bureau cars are stored in a parking lot at 11th and Market Streets in Philadelphia known as "Park and Lock." It is surrounded with a wire fence and there is an attendant on duty; however, during the evening and night there is only one parking lot employee and the cars would be vulnerable to a determined effort to sabotage them or steal equipment. SAC Jamieson stated that he had discussed the matter with SAC Roy K. Moore who is in Philadelphia in charge of the MEDBURG investigation and they are making arrangements to have agents assigned on an around-the-clock basis on a "stake out" not only to afford protection to the Bureau automobiles but also to identify and arrest anyone attempting any action against the Bureau automobiles. SAC Jamieson was advised that unless called back to the contrary, it would be satisfactory to go forward with this action. Assistant Director Felt, Inspection Division, agrees. *U*

RECOMMENDATION:

None. Submitted for information and record purposes. *U*

MEDBURC

Editor
Boston Globe
135 Morrissey Boulevard
Dorchester, Massachusetts

Dear Sir:

I suppose that I am naive, but I cannot believe the report on page three of your April 28 morning edition that FBI agents visited Archbishop Medeiros and discussed with him the use of an archdiocesan student center by the Peoples Coalition for Peace and Justice.

I believe that the FBI taps telephone lines, keeps a file on those attending ecology meetings, interrogates members of the peace movement in order to increase the paranoia of those in the movement and performs other acts which are not strictly in their function; but to act as a kind of a super-landlord, pointing out to actual landlord the political philosophies of their tenants is far beyond the power of the Federal Bureau of Investigation as set forth in Title 28, United States Code, Sections 531-537.

I hope that a further investigation will be made of the entire incident.

Very truly yours,

JAPH/cac

The Honorable Edward M. Kennedy
The Honorable John Mitchell

Appeal

Re Detroit TT to Bureau, 5/18/71. # 8-1227

On 5/17/71, [] Supervisor, Finance Section, USPO, Detroit, was contacted and he advised that Pitney-Bowes Postal Meter number 121057 is a USPO machine and that from 1960 to 7/29/69, this machine was being used at USPO, North End Branch, 60 E. Milwaukee St., Detroit, Mich. He further stated that on 7/29/69, use of the machine was discontinued.

On 5/17/71, [] Manager, Pitney-Bowes, Detroit, advised that the USPO owns their own meters and they would dispose of them upon completion of use. He further advised that his records reflect no information on this machine.

On 5/18/71, [] advised that further scrutiny of USPO records revealed that postal meter 121057 was removed from the North End Branch on 7/29/69, for repairs but was returned there shortly thereafter. He further stated that the machine has been in continuous use at the USPO North End branch since that time.

On 5/18/71, [] Superintendent, USPO, 60 E. Milwaukee, advised that postal meter 121057 has been in continuous use as a counter machine, and the tapes from this machine are applied to incoming mail from over-the-counter business.

On 5/13/71, USPO Clerks [] and [] were operating this machine. Both clerks were extensively interviewed but

bring to a speedy end the war in Indo-China. The letter was
signed as Co-Chairman of East Bay
Women for Peace.

b6
b7C

Characterization of Women for Peace attached
hereto.

U

WOMEN FOR PEACE aka
Women Strike for Peace

The "Berkeley Daily Gazette," a daily newspaper of general circulation published in Berkeley, California, contained an article in the November 19, 1965, evening edition reflecting that in November, 1961, when concern mounted over radioactive fallout from nuclear testing, a group of women in Washington, D. C. started Women Strike for Peace. The idea spread rapidly throughout the country and now embraces 900 groups, including Women For Peace groups in the San Francisco Bay area.

These groups support programs to achieve goals such as:

- (1) Continued disarmament negotiations.
- (2) A strong and flexible United Nations.
- (3) Planning now at state and national levels for conversion to peace-time economy and positive efforts to ease world tensions.

The women act as individuals and as a group, with specific actions suggested by individuals and groups from all over the world. Decision to participate jointly on any given suggestion is democratically arrived at by members of the Coordinating Committee. Effective cooperation with other peace groups is encouraged. Monthly Coordinating Committee meetings and general meetings, as warranted, are open to all and announced in mailings to members. There are no dues or membership forms nor conditions for membership.

To stir an awareness of the need for peace, Women For Peace encourage public education in peace objectives at local schools and sponsor peace-oriented demonstrations and public meetings, newspaper ads, billboards, and candidates for public office. On the national level the group attempts to influence government officials by letters and conferences.

It was determined that the typewriters used in preparing K4747, K4748 and K4751, were not used in preparing the questioned typewriting appearing on evidence in this case.

Page 1

(over)

AEH:pw (9)

MAIL ROOM ☐ TELETYPE UNIT ☐

Nothing significant was noted in the hand printing on K4744, K4746 and K4750 when compared with the unidentified questioned hand printing appearing on evidence in this case or on evidence in the EASTCON case; however, a definite conclusion was not reached as a result of these comparisons because of the lack of adequate comparable material. U

The handwriting appearing on K4745 and K4749 is not comparable with the questioned hand printing appearing on evidence in this case or the EASTCON case. U

Specimens K4744 through K4751 are retained. Appropriate photographs are also retained. U

SUBJECT: MEDBURG

CR-13653
(K4859)

Re Philadelphia airtels dated 4/28/71, 4/20/71 and 4/14/71, requesting a composition analysis of documents received from unsubs.

Enclosed herewith for the Bureau are four copies of a typewritten statement reportedly authored by _____

This statement was obtained on _____ by _____ source _____ and was believed to have been written sometime subsequent to _____

A review of the enclosure by Philadelphia disclosed a similarity of content to that of the unsubs in their original news release following MEDBURG. Composition and statements such as "I (do) not risk this sort of confrontation with the Government lightly nor do I enjoy the thought of such personal jeopardy," and "...are acutely aware of their responsibility... for a just and humane society," are very similar to statements appearing in the unsubs' statement.

BACKGROUND

For the information of the Bureau, [] is a well known peace demonstrator who has participated in several actions in opposition to the war in Vietnam. In one such activity he joined five other persons in chaining themselves to a Local Draft Board in Upper Darby, Pa., for which he was fined \$300, which was later remitted, with the disorderly conduct charge dismissed on appeal. U

b6
b7C

He reportedly is a theology teacher at St. Josephs College, Pa., and was indicted by Federal Grand Jury in December of 1970, for violation of income tax laws. [] is acquainted with several individuals who are considered suspects in MEDBURG and has been active in the Philadelphia War Tax Resistance. In this regard, it is noted that a typewritten statement originating with this group was previously submitted to the FBI Laboratory for type comparison with the original news release of the unsub and the laboratory concluded that the same style of type was used. U

Since original specimens from the Philadelphia War Tax Resistance were not submitted, a positive conclusion could not be reached. U

REQUEST OF THE CRYPTOANALYSIS SECTION AND RESEARCH SECTION:

That the enclosure be analyzed and compared with previous submission. U

AS THE BUREAU IS AWARE, BALTIMORE PRESENTLY HAS FIVE BALTIMORE AGENTS ASSIGNED ON SPECIAL TO THE PHILADELPHIA OFFICE, AND IT IS REQUESTED THAT THESE FIVE AGENTS BE RETURNED TO BALTIMORE TO BE ASSIGNED EXCLUSIVELY TO MEDBURG INVESTIGATION IN THIS DIVISION AND THESE FIVE AGENTS BE REPLACED IN PHILADELPHIA WITH AGENTS FROM ANOTHER DIVISION NOT INVOLVED IN INTENSIVE MEDBURG INVESTIGATION. U

END

DRL FBI WASH DC

CC-MR. ROSEN

May 12, 1971

GENERAL INVESTIGATIVE DIVISION
MEDBURG

Attached outlines intensification of investigation in Baltimore area brought about by fact information received from various sources indicating possibility original stolen FBI documents may be within the Baltimore Division. "Resist," antiwar organization in Cambridge, Massachusetts, apparently has received copies of stolen documents mailed from their Steering Committee member in Baltimore.

Baltimore has five men assigned to Philadelphia Office in connection with Medburg special and requests they return to Baltimore to assist in Medburg investigation there. This would require five additional Agents be transferred to Philadelphia from other offices.

A check with Philadelphia indicates they are utilizing to the fullest extent all Agent personnel assigned there, including the five from Baltimore. Baltimore telephonically advises 15 men assigned full time to Medburg and seven full time to Eastcon out of a total complement of 139.

While there has been a definite shift of investigative intensity toward the Baltimore Division, there has not been a lessening of investigation in Philadelphia. In fact, Philadelphia is conducting considerable investigation relative to the attempted break-in of the Garden City, Long Island, Resident Agency. With only 22 men assigned full time to Medburg and Eastcon, necessity for transferring additional manpower to Baltimore at this time does not appear to be warranted. If approved, Baltimore will be so advised. However, this will be followed closely and the situation re-evaluated as required.

FEDERAL BUREAU OF INVESTIGATION
WASHINGTON, D. C. 20535

To: SAC, Washington Field Office
(52-12674)

Date: May 17, 1971
FBI File No. 52-94527
Lab. No. D-710514080 LC

Re: GARDBURG ATTEMPT

MEDBURG

Specimens received 5-14-71

K4843 Passport Application form dated 11-26-69, bearing hand
printing and signature of [redacted]

b6
b7C

Result of examination:

Indications of disguise in the limited questioned
writing appearing on Q49, the GARDBURG sign-in log, and the
lack of adequate comparable known writing prevented a definite
conclusion being reached whether the writing on Q49 (GARDBURG)
was or was not prepared by [redacted] the writer of
K4843. u

It was determined that [redacted] K4843, did not prepare
the hand printing appearing on Q48 and Q49 in the MEDBURG case. u

Specimen K4843 has been photographed and is returned
herewith. u

The Attorney General forwarded to the Bureau a communication he received from Congressman Gilbert Gude (R-Eighth District, Maryland) enclosing a letter to the Congressman received from [redacted]

[redacted]'s letter complained of an interview of his daughter, [redacted] aged 16, by FBI Agents on April 27, 1971. The Attorney General requested that the FBI make an appropriate reply to the Congressman and send a copy to [redacted] Chief, Legislative and Legal Section, of the Department. *U*

On March 28, 1971, a group of individuals held a meeting at the Church of the Pilgrims, Washington, D. C. This meeting was attended by approximately 23 persons who were making plans for a group demonstration at the Department of Justice Building on April 9, 1971. The group had been identified as the Tribe of Ezekiel, an organization which had recently been formed consisting of sympathizers of Father Philip Berrigan and others of the Eastcon who had been indicted on charges of conspiracy to kidnap a Government official and destroy Government property. [redacted] of [redacted] was identified as one of the individuals attending this meeting. *U*

During this meeting; an alleged discussion was held concerning distribution of Xerox copies of FBI documents that had been stolen from the Media, Pennsylvania, Resident Agency (RA). The Tribe of Ezekiel held the demonstration on April 9, 1971, and approximately 100 copies of a stolen FBI document were passed out to the demonstrators. *U*

On April 27, 1971, Special Agents of the Silver Springs, Maryland, RA located [redacted] at her [redacted] residence, appropriately identified themselves, and courteously advised her they wanted to discuss the activities of her meeting.

Enclosure *sent 5-20-71*

Rosen to Sullivan Memorandum
RE: MEDBURG

at the Church of the Pilgrims, Washington, D. C., on March 28, 1971. Agents noted [] appeared to be approximately 18 to 20 years of age but after interview initiated, it was learned she was 16 years old. The interview was immediately discontinued and she was advised that Agents would wait until her parents could be present. [] declined this offer advising she had been told by friends that the FBI would be contacting her and that her parents had asked her if she wanted them present during the interview and she told them she did not think it was necessary. On April 28, 1971, [] father of [] telephonically contacted the Silver Springs Senior Resident Agent who fully explained to [] why his daughter was contacted, that she was not a suspect in this case, and that his daughter was offered the opportunity to be interviewed in the presence of her parents but had declined this offer. U

b6
b7C

ACTION:

Attached for approval is a letter to Congressman Gilbert Gude advising him of the circumstances surrounding the interview with [] and the fact the Agents offered to terminate the interview until her parents could be present when they learned she was only 16 years old. Congressman Gude is not on the Correspondents List and our relations with him are generally satisfactory. U

Also attached is a letter to [] Chief, Legislative and Legal Section of the Department, furnishing him with background relative to []'s connection with the distribution of copies of stolen FBI documents and enclosing copy of our reply to Congressman Gude. U
